

DUNKLEY INTERNATIONAL FRUIT PIERCER SSP-5000

The Dunkley International Fruit Piercer SSP-5000 is built to handle years of heavy service and designed with ease of service in mind.

Stainless steel eccentrics and a stainless steel Geneva wheel are mounted outside of the processing area, easy to access and service.

All new exterior nylon gibs support the stainless steel needle and stripper bars, and a stainless steel hopper gently feeds in your fruit.

Configurable to handle piercing cranberries or pitting cherries.
